

## DAILY GAZETTE

Wells Boots.

Grand View Hotel.

Boston Clothing House.

Dr. Giffen will remove his Dental Rooms, Monday Dec. 1st, to first door from Barber Shop in Exchange Hotel. 108-21.

Yesterday was a beautiful day, and seemed doubly so, when contrasted with the day preceding.

The burial of the woman, who was accidentally shot at, Teocote Hill a few days ago, took place yesterday afternoon.

The Trinidad News is authority for the statement that the Quimette family will be at Close & Patterson's Varieties next week.

Jairus Neal of Newton Kansas, is in the city looking around among our real estate men with a view, perhaps, to investment.

The Native is seriously mistaken in saying that Las Vegas in company with other towns is complaining of deep snows. The only snow here is in sight on the far distant mountains in the inhospitable regions of Colfax or Mora County.

We are sorry to announce in this morning's issue the death of Mr. Louis Sulzbacher's youngest child. This is doubly sad, as Mr. Sulzbacher is away from home, and under no circumstances can come home to attend the burial of his babe.

Major Merison, acting coroner, yesterday held an inquest on the body of the unfortunate woman Josie Whitelow. The account of the accidental shooting which resulted in death has already been published in the GAZETTE. No new facts have been brought out, and the jury will return a verdict to-day.

### SOCIAL CLUBS TAKE NOTICE.

There will be a joint meeting of the Social Clubs, of East and West Las Vegas, Saturday evening at 8:30 o'clock sharp, at the store of T. Romero Bros. & Son. All the members of both clubs are requested to be present. The object of the meeting is, to confer with the committee of arrangements on masked ball.

### The Ball.

The ball, which came off at Hough-ton's hall, night before last was a grand success in every respect. Owing to the late hour at which the ball was cut we were unable to give a detailed account of it. The supper was given at Watson's Restaurant. The table was bountifully supplied with all that was to be had in the market. The following is the names of the ladies present: Mrs. C. B. Smith, Mrs. Menotti, Mrs. Margarito Romero, Mrs. Simpson, Mrs. McNairn, Mrs. Blackwell, Mrs. Martin, Mrs. T. A. Jones, Mrs. W. A. Givens, Mrs. Holmes, Miss Perez, Miss Winn, Miss McDonald, Miss Wiley, Miss Louisa McKey, Miss Julia McKay, Miss Rosenblatt, Miss Romero, Miss Chapman, Miss Wood, Miss Menotti, Miss Barris, Miss Jennings, Miss Nordhouse, Miss Williams, Miss Bowers.

*La Soñada*, a new Spanish paper published at Tucson, Arizona, is welcomed as an exchange. Its most interesting feature is easy Spanish lessons for English readers.

The Phoenix Herald says, that at no time since that town was settled was there so many hard chargers in it as now. It says all the hard cases in the west are accumulating there.

### Taking Advantage of the Apaches.

Indian Commissioner Hayt advises the removal of the Indians to the Indian territory, as the "country is not adapted to Indian fighting, and everywhere offers open fields for the use of artillery, and all the appliances of civilized warfare." Mr. Hayt is too soon in this matter. The Indians have not secured a supply of artillery, and therefore should not be removed to this good fighting ground until they have supplied themselves with it. If Mr. Hayt has their best interests at heart he will leave the Indians in their present broken country, where their Winchester rifles are as good arms as are needed. When the post traders supply them with artillery it will do a task of a huge field for the red warriors to dispel their powers.

### PURE GOLD.

#### No Fraud This Time.

Mr. Strausner, one of the most substantial citizens of Las Vegas, says that the newly discovered gold mines, which are situated some 10 or 15 miles south of the town are very rich. This richness is not determined by assays but by actual work. A gentleman who is now working them is taking a half ounce of gold per day and this too by hand. The stone is first smashed up or crushed with the imperfect means in his possession and then by means of quicksilver the gold is taken up. Mr. Strausner goes to the mines to-day to commence work on his claim.

### MORE MINES.

More excitement has been created by the discovery of a very rich silver mine located 18 miles south of Las Vegas and within a short distance of the N. M. & S. P. R. R. Yesterday the mine was visited by Professor Moffit of Boston, and Dr. B. B. Pettit of Las Vegas and several others, and pronounced by all to be very rich. The assays that have been made are very large and without doubt proves the value of the mine. The mine is owned by Alex Rogers, conductor in the construction department of the N. M. & S. P. R. R. He has already been offered \$1000 for a one half interest in the mine which he refused. Work will soon be commenced and it is hoped will prove a grand success.

Prospecting in this neighborhood seems to be indulged in, at present, to a greater extent than at any other time for months. The beautiful weather now prevailing is probably the great cause of this activity. And from all accounts the efforts of the prospectors are not wholly in vain. Quite a number of reasonably rich finds have been reported; one in particular, which has been reported within the last few days. The rock is claimed not to be very hard and when crushed and washed shows up rich in gold.

Eleven car loads of stock for Streeter & Sorrell came down the road yesterday. They go on down toward Santa Fe where the firm have a big grading contract.
